

WATERFALL
SERIES

Model 01 Door & Panel in Oil-Rubbed Bronze

MODEL 01 DOOR & PANEL

WaterFall's 01 Series offers a custom look at an affordable price. Combine a number of our stock doors with a sidelite to provide designer appeal to showers up to 60" wide. Sidelites are available in custom shapes and sizes to accommodate the ever-popular shower seat, as well as "buttress" conditions. The capability to pair a custom sidelite with a stock door provides a more economical solution. Door options include WaterFall's framed, semi-frameless and patch-hinge doors. All Model 01 Series units install with overlapping/telescoping joinery for clean lines and maximum waterproofing.
