

Model 04 Neo Angle in Oil-Rubbed Bronze

## MODEL 04 NEO ANGLE PIVOT DOOR

WaterFall's Model 04 Neo-Angle Shower Enclosures offers a space saving design that can transform any bathroom corner into a designer shower. The 04 can be installed as a "stand alone" unit or it can be easily modified to fit "buttress" conditions allowing the unit to be installed adjacent to a vanity or a tub on one or both sides. Door options include WaterFall's framed, semi-frameless and patch-hinge doors. All components install with a telescoping design ensuring structural integrity, maximum waterproofing and clean, consistent lines. Our engineers and fabricators can modify the 04 design to a wide variety of configurations to meet your exact needs.
