WB-1
Wall Mounting Bracket

WATERFALL BATH ENCLOSURES is your one-stop source for all of your Heavy Glass needs. The concept of Heavy Glass has evolved as the product of choice for builders, homeowners and remodelers. Once limited to high-end new construction or remodel, Heavy Glass units are now installed in the entire cross section of the building and remodel market. Meeting this diverse need is a combination of three elements:

GLASS properly sized and fabricated for the specific job; no two jobs are alike. Waterfall meets and exceeds this need with an industry-leading inventory of stock door lites, transom panels, sidelites and return panels. These are complimented with our partnerships with custom tempered glass suppliers. We support this supply chain with take-off systems, incoming quality control where each lite is inspected for measurements and surface quality and delivery via Waterfall trucks or efficient pick up at our Carrollton, TX location.

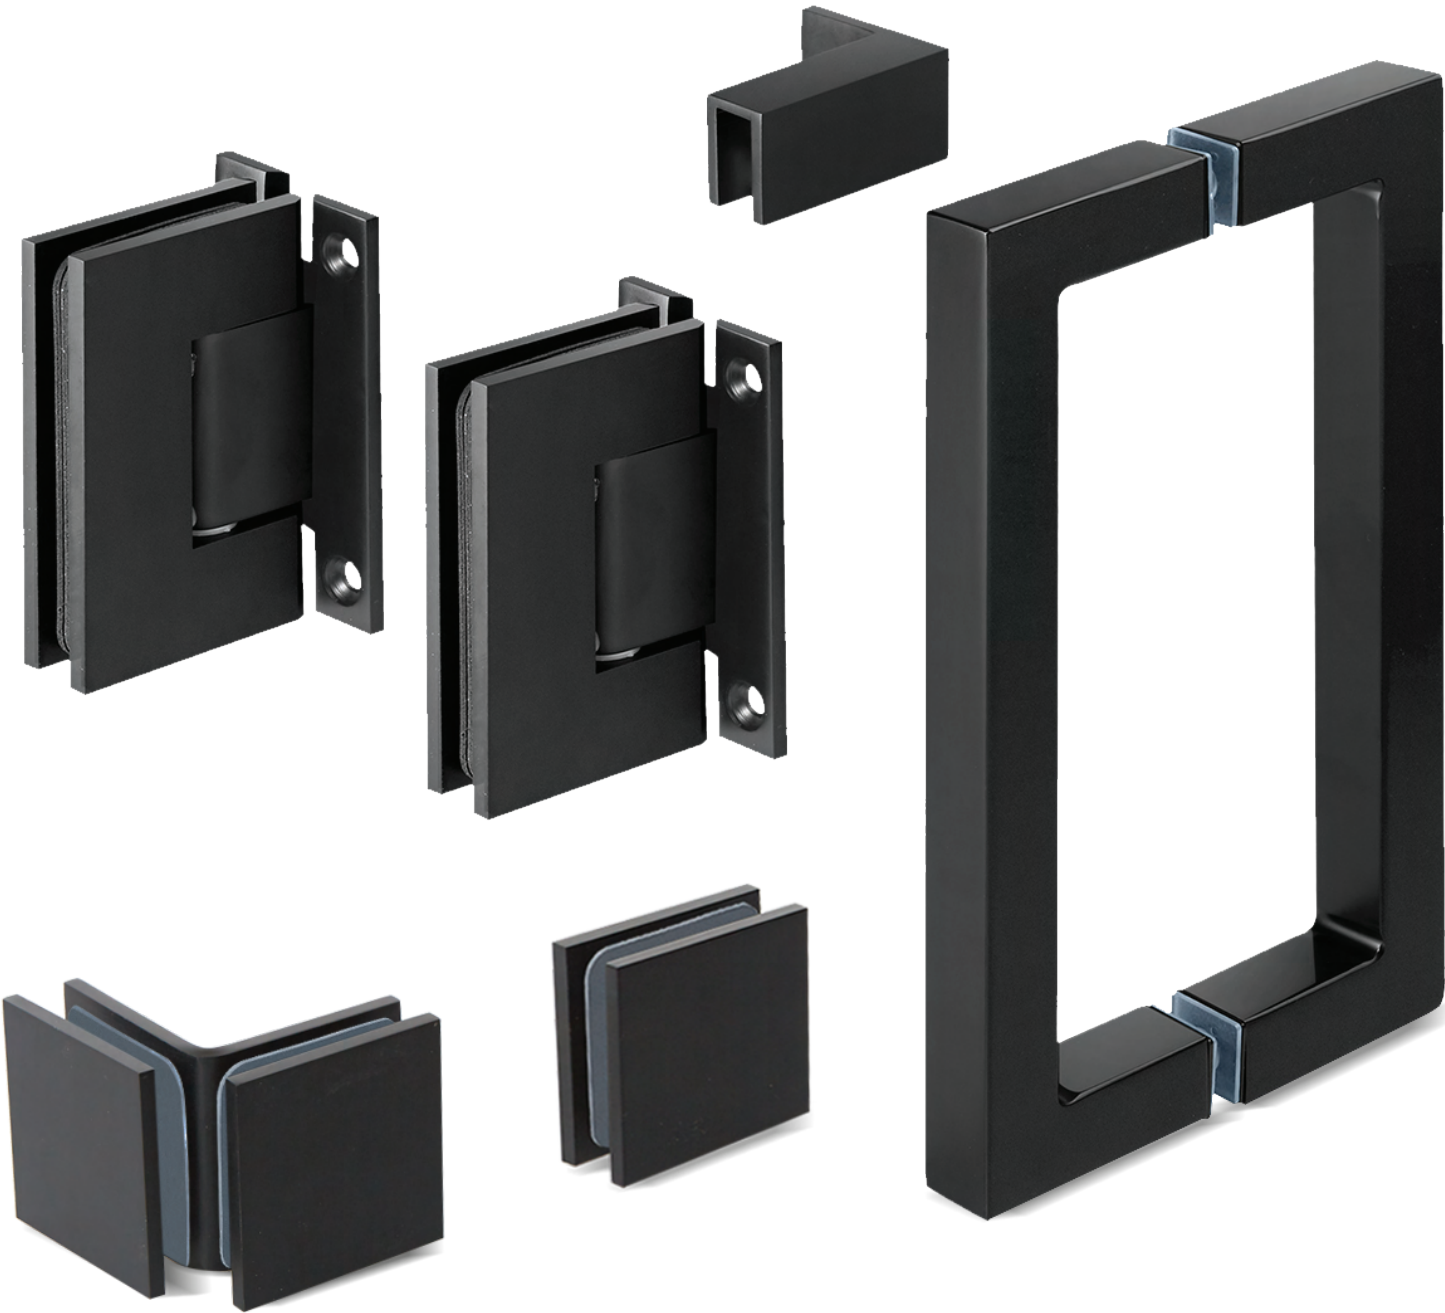

HARDWARE properly suited to meet the structural requirements of the installation while satisfying the aesthetic requirements of the homeowner, designer or builder. Our hardware inventory has grown exponentially as expressed by the variety of designs, features and applications of the hardware shown in this brochure. We constantly monitor the market and add new and improved versions of Heavy Glass Hardware.

INSTALLATION - the most important element. We don't install but our knowledgeable staff with decades of experience is always there to assist with up-front advice all the way to problem-solving from the jobsite.

Give us the opportunity and our staff will convert your measurements into a complete package at competitive prices and efficient delivery. All available with one stop – **WATERFALL BATH ENCLOSURES**.
